### **Update: State Route 86/Sells detour in effect for four weeks**

Tucson, Arizona - The detour in place off State Route 86 in the Town of Sells, due to a road washout, is now expected to be in effect for four weeks.

Commercial trucking is prohibited through the Town of Sells and cannot use the detour on State Route 86. All trucks in excess of 26,000 pounds gross vehicle weight (GVW) cannot pass through the Town of Sells from the east or west on State Route 86, with the exception of local deliveries and any vehicle responding to an emergency. Interstate 10, Interstate 8 and State Route 85 can be used as alternative routes for trucks in excess of 26,000 pounds GVW.

The Arizona Department of Transportation has placed a  $\frac{3}{4}$  mile detour on State Route 86 in the Town of Sells for local traffic and vehicles less than 26,000 pounds GVW.

Westbound traffic is being detoured to the south at milepost 114 along the roads leading to the Police Department and Sells Hospital. The detour then loops back onto State Route 86. Eastbound traffic is being detoured in the opposite direction.

Motorists are advised to obey all traffic signs and detour routes while traveling through the area.
