Emergency Shelter Grant (ESG)

The ESG program supports projects providing shelter and assistance to the homeless as well as providing funds to prevent homelessness. Funds provide essential services, including operations and maintenance for facilities assisting the homeless and services that prevent homelessness.

Pima County publishes a Request for Proposals. County staff reviews proposals along with representatives from the Tucson Planning Council for the Homeless and the local FEMA board.

Priority will be to fund agencies serving unincorporated Pima County as well as South Tucson, Marana, Sahuarita and Oro Valley.

For information on ESG, please contact: Jane Kroesen at (520)243-6765
