Frequently Asked Question:

"I was doing the budget page on RFP, noticed it asks for 2009-2010 actual, then 2010-2011 projected budget, which is the current year. Should this be 2010-2011 actual, with 2011-2012 projected, which would be first year of the CSBG funds we are applying for"?

Answer:

The Community Action Agency Advisory Board requests 2009-2010 Actual Budget and 2010-2011 Projected Budget, they want to see last year's operating budget and this year's operating budget. It states "projected" because some agencies may still be pending funds from other sources.
