

Instructions for activating your Chase Health Savings Account debit card.

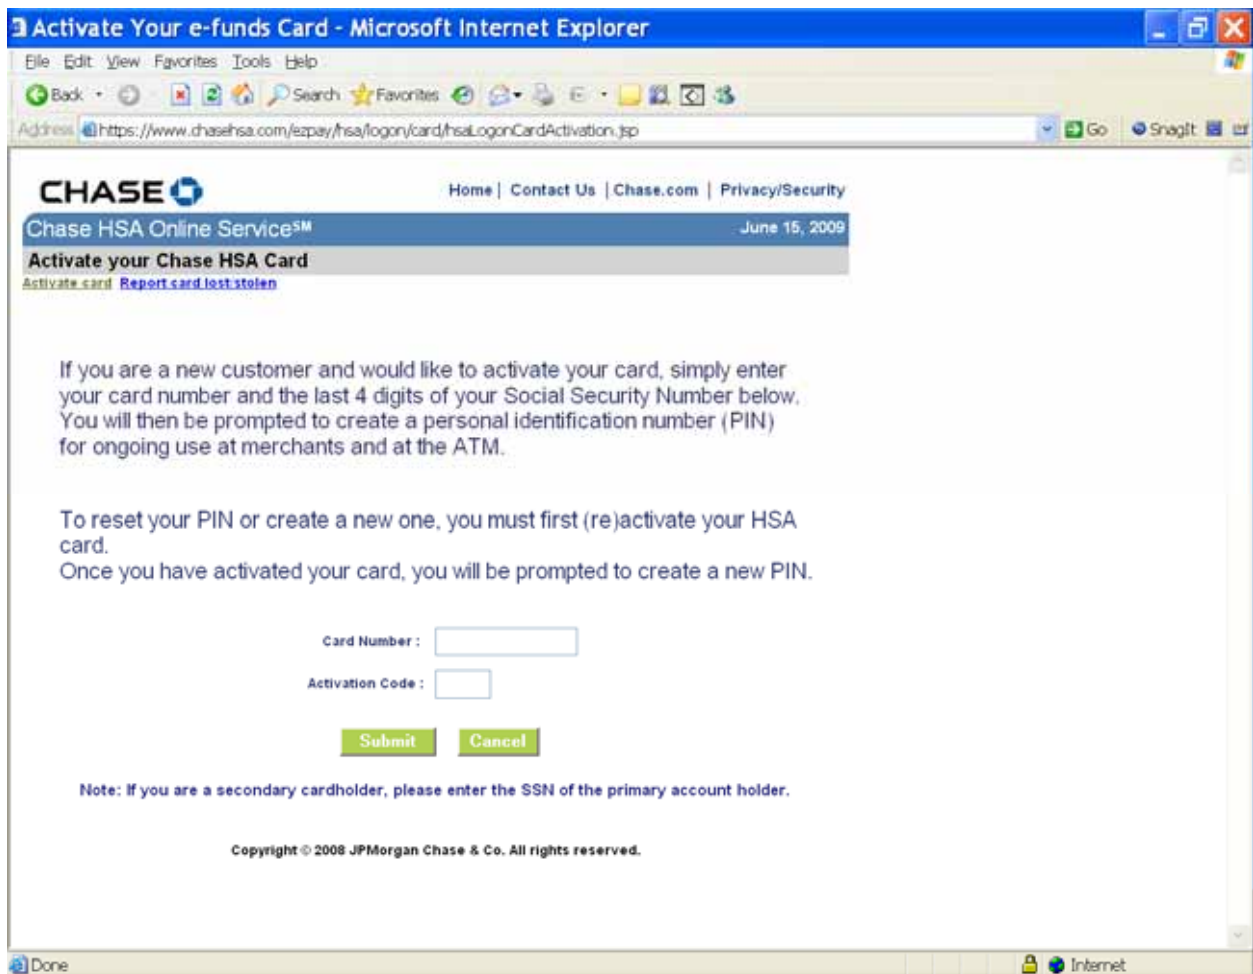

Phone Activation 866-295-9173 and follow the prompts.

On-Line Activation www.chasehsa.com

Follow the link, bottom left of the screen > Activate Card or Reset Forgotten PIN

Enter your 16 digit HSA Debit card number, along with the activation code which is the last 4 digits of the accountholder's SSN.

The screenshot shows a Microsoft Internet Explorer browser window titled "Activate Your e-funds Card - Microsoft Internet Explorer". The address bar displays the URL: <https://www.chasehsa.com/ezpay/hsa/logon/card/hsaLogonCardActivation.jsp>. The page content includes the Chase logo, navigation links for Home, Contact Us, Chase.com, and Privacy/Security, and a header for "Chase HSA Online Service" dated June 15, 2009. The main heading is "Activate your Chase HSA Card", with links for "Activate card" and "Report card lost/stolen".

If you are a new customer and would like to activate your card, simply enter your card number and the last 4 digits of your Social Security Number below. You will then be prompted to create a personal identification number (PIN) for ongoing use at merchants and at the ATM.

To reset your PIN or create a new one, you must first (re)activate your HSA card. Once you have activated your card, you will be prompted to create a new PIN.

Card Number :

Activation Code :

Note: If you are a secondary cardholder, please enter the SSN of the primary account holder.
