

STATE OF ARIZONA
OFFICE OF THE
AUDITOR GENERAL

Independent Auditors' Report

Members of the Arizona State Legislature

The Board of Supervisors of
Pima County, Arizona

We have audited the accompanying general purpose financial statements of Pima County as of and for the year ended June 30, 2000, as listed in the table of contents. These general purpose financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit. We did not audit the financial statements of the Metropolitan Domestic Water Improvement District and the Southwestern Fair Commission, the discretely presented component units of the County. We also did not audit the financial statements of the Pima County Stadium District, a blended component unit of the County. The Stadium District's financial statements disclose total assets of \$3,188,467 and \$42,320,370, which are included in the County's Special Revenue Funds and the General Fixed Assets Account Group, respectively, as of June 30, 2000; and total revenues and other financing sources of \$4,012,983, which are included in the County's Special Revenue Funds for the year then ended. The financial statements of all three entities were audited by other auditors whose reports have been furnished to us, and our opinion on the financial statements, insofar as it relates to the amounts included for those entities, is based solely on the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of the other auditors, the general purpose financial statements referred to above present fairly, in all material

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of Pima County taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

The information included in the introductory and statistical sections listed in the table of contents has not been subjected to the auditing procedures applied in our audit of the general purpose financial statements and, accordingly, we express no opinion on such information.

In accordance with *Government Auditing Standards*, we will also issue our report on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants at a future date. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Debbie Davenport
Auditor General
