A.R.S. §11-1606 Application Process Notice

Under A.R.S. §11-1606, Pima County is required to give you the following information when you apply for an Industrial Wastewater Discharge Permit.

A. The following steps are required to obtain a permit.

Step one – Download, complete, print and sign this application.

Step two – Submit the completed permit application with the appropriate fee to:

Industrial Wastewater Control – 3035 West El Camino del Cerro – Tucson, Arizona 85745

B. Once a completed Industrial Wastewater Discharge Permit application has been received, Pima County Code 13.36.110.B.3 requires the Pima County Regional Wastewater Reclamation Department (PCRWRD) to respond within 45 days.

C. Mr. Jack Parker can provide assistance with the application process and may be contacted at (520) 724-6200 or jack.parker@wwm.pima.gov

D. A.R.S. §11-1609 states that requests can be made of the County to clarify its interpretation or application of a statute, ordinance, regulation, delegation agreement or authorized substantive policy statement that affects the issuance of your permit by providing the County with a written request that states:

- (1) Your name and address;
- (2) The statute, ordinance, regulation, delegation agreement, or authorized substantive policy statement, or part thereof, that requires clarification;
- (3) Any facts relevant to the requested ruling;
- (4) Your interpretation of the applicable statute, ordinance, regulation, delegation agreement, or authorized substantive policy statement, or part thereof, that requires clarification; and,
- (5) Whether, to the best of your knowledge, the issues or related issues are being considered by the County in connection with an existing permit, license or license application.

You may request a written clarification or interpretation by the staff member reviewing your permit application. If you disagree with a staff clarification/interpretation, you may appeal to the Manager of the Compliance and Regulatory Affairs Office. Official decisions may be appealed to the Pima County Board of Supervisors in accordance with Pima County Code 13.36.200.

**PIMA COUNTY REGIONAL WASTEWATER
RECLAMATION DEPARTMENT**

**APPLICATION/QUESTIONNAIRE FOR
INDUSTRIAL WASTEWATER DISCHARGE PERMIT**

INSTRUCTIONS TO ASSIST YOU IN FILLING OUT THE APPLICATION ON PAGE 2 OF 11:

1. **Business Name:** How you want the name to appear on the permit.
2. **Service Address:** Location of business being applied for.
3. **Mailing Address:** Address where you receive mail.
4. **Authorized Representative:** A person is a duly authorized representative only if:
 - a. The authorization is made in writing by a person described in section 13.36.110(A)(5);
 - b. The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity such as of plant manager, operator of a well or a well field, superintendent, position of equivalent responsibility for environmental matters for the company. (A duly authorized representative may thus be either a named individual or any individual occupying a named position.); and,
 - c. The written authorization is submitted to the Director.
5. **Type of Business:** Description of the business, number of employees, and hours of operation.
6. **Industrial wastewater discharged at this site results from the following operations:** Describe any activity performed at this location which will generate any industrial wastewater discharge to the Pima County sewerage system. Examples of businesses with such activities include restaurants without grease traps, machine shops, automotive shops, car washes, silver recyclers, metal platers, construction yards, hospitals, laboratories of any kind, photo processors, printers, industrial laundries, chemical and paint manufacturers, etc.
7. **Industrial wastewater discharged to sewer:** Volume of industrial wastewater discharged to sewer per day.
8. **Fee Submittal:** The application fee for an industrial wastewater discharge permit for significant industrial user (a business discharging more than 25,000 gallons per day), or those subject to categorical pretreatment standards, is \$600.00. All others the application fee is \$75.00.
9. **Certification:** All permit applications shall be signed as follows:
 - a. For a corporation: by a responsible corporate officer, such as:
 - (1) A president, secretary, treasurer, or vice-president of the corporation in charge of a principle business function, or any other person who performs similar policy - or decision-making functions for the corporation, or
 - (2) The manager of one or more manufacturing, production, or operating facilities employing more than 250 persons or having gross annual sales or expenditures exceeding \$25 million (in second-quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.
 - b. For a partnership or sole proprietorship: by a general partner or the proprietor, respectively; or,
 - c. For a municipality, State, Federal, or other public agency: by either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a Federal agency includes: (i) the chief executive officer of the agency, or (ii) a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

Please complete this application/questionnaire to the best of your ability. If an answer is not known with certainty, estimate or declare that the answer is not known. If you have more than one plant location, complete an application/questionnaire for **each** location. Use additional sheets if necessary.

If you have any questions or problems in filling out this questionnaire, contact the INDUSTRIAL WASTEWATER CONTROL SECTION at (520)724-6200.

Please return this **original** application/questionnaire to:

10. Which of the following wastes would you expect to discharge to the sewer?
- | | | |
|----------------------------|------------------------|----------------|
| a. _____ Oil | f. _____ Alkalies | j. Other _____ |
| b. _____ Grease | g. _____ Pesticides | k. Other _____ |
| c. _____ Fats | h. _____ Paints | l. Other _____ |
| d. _____ Ground Substances | i. _____ Inks and Dyes | |
| e. _____ Acids | | |

11. Is your business classified as one of the following industries?

Yes No

If answer "YES", indicate which one(s):

- | | |
|-------------------------------------------------------------|-----------------------------------------------------------------------|
| <input type="checkbox"/> Adhesives & Sealants | <input type="checkbox"/> Ore Mining |
| <input type="checkbox"/> Aluminum Forming | <input type="checkbox"/> Organic Chemicals Manufacturing |
| <input type="checkbox"/> Auto & Other Laundries | <input type="checkbox"/> Paint & Ink Formulation |
| <input type="checkbox"/> Battery Manufacturing | <input type="checkbox"/> Pesticides |
| <input type="checkbox"/> Coal Mining | <input type="checkbox"/> Petroleum Refining |
| <input type="checkbox"/> Coil Coating | <input type="checkbox"/> Pharmaceutical Preparations |
| <input type="checkbox"/> Copper Forming | <input type="checkbox"/> Photographic Equipment & Supplies |
| <input type="checkbox"/> Electrical & Electronic Components | <input type="checkbox"/> Plastics Processing |
| <input type="checkbox"/> Electroplating | <input type="checkbox"/> Plastics & Synthetic Materials Manufacturing |
| <input type="checkbox"/> Explosives Manufacturing | <input type="checkbox"/> Porcelain Enameling |
| <input type="checkbox"/> Foundries | <input type="checkbox"/> Printing & Publishing |
| <input type="checkbox"/> Gum & Wood Chemicals | <input type="checkbox"/> Pulp & Paper Mills |
| <input type="checkbox"/> Inorganic Chemicals Manufacturing | <input type="checkbox"/> Rubber Processing |
| <input type="checkbox"/> Iron & Steel Manufacturing | <input type="checkbox"/> Soap & Detergent Manufacturing |
| <input type="checkbox"/> Leather Tanning & Finishing | <input type="checkbox"/> Steam Electric Power Plants |
| <input type="checkbox"/> Mechanical Products Manufacturing | <input type="checkbox"/> Textile Mills |
| <input type="checkbox"/> Nonferrous Metals Manufacturing | <input type="checkbox"/> Timber Products Processing |

12. Describe Industrial Pretreatment equipment on-site:

- a. _____ Sand/Oil Interceptor
- b. _____ Grease Trap or Interceptor
- c. _____ Lime Chip Neutralization Basin
- d. _____ Silver Recovery Unit
- e. _____ Package Treatment Plant

13. Location of Pretreatment equipment (use diagram if necessary):

a. Does this location provide for sampling PRIOR to commingling of industrial and domestic waste streams?

Yes No

b. Does this location provide UNRESTRICTED PHYSICAL ACCESS during normal business hours:

Yes No

If NO, Applicant must submit a letter to the Director of Wastewater authorizing access to Sample Location during normal business hours.

14. Describe *routine maintenance* required by your pretreatment equipment.

- | | |
|-------------------------------------------------------------------|------------------|
| <input type="checkbox"/> Skimming of Trap or Interceptor | How often? _____ |
| <input type="checkbox"/> Pumping of Trap or Interceptor | How often? _____ |
| <input type="checkbox"/> Replacement of Lime Chips | How often? _____ |
| <input type="checkbox"/> Replacement of Silver Recovery Canisters | How often? _____ |
| <input type="checkbox"/> Other (Describe) _____ | How often? _____ |

15. What type of discharge would you expect from your system?

Batch _____ Continuous _____ Both _____

16. From Appendix A, determine the North American Industry Classification System (NAICS) Code(s) for your type of business.

17. Please indicate by placing an "X" in the appropriate box by each listed chemical whether it is "Suspected to be Absent" "Known to be Absent" "Suspected to be Present", or "Known to be Present" in your manufacturing or service activity or generated as a by-product.

All businesses must submit a spill protection and slug discharge control program each time they apply for an industrial wastewater discharge permit.

INSTRUCTIONS TO ASSIST YOU IN FILLING OUT THE SPILL PLAN WORKSHEET ON PAGE 9 OF 11

- A. A description of discharge practices.
 - 1. Routine, continuous, intermittent, or batch discharges.
 - 2. Any nonroutine discharges, including nonroutine batch discharges.
- B. Description of stored chemicals.

Note: Stored chemicals also include those that are normally hooked up to any kind of dispensing or collecting system.

 - 1. Fresh chemicals and/or waste chemicals;
 - 2. Paints, flammables, fuels;
 - 3. Lube oils, grease, fuel oils;
 - 4. Organic (cleaning) solvents;
 - 5. Pesticides; or
 - 6. Solids or viscous liquids.
- C. Procedures for immediately notifying the Industrial Wastewater Control (IWC) offices of slug discharges, including any discharge that would violate a prohibition under 40 CFR 403.5(b) with procedures for follow-up written notifications within five days. The Program should clearly state the following:
 - 1. IWC shall be notified immediately in the event of any accidental spill or slug discharge to the Publicly Owned Treatment Works (POTW).
 - 2. Within five days, a follow-up written notification shall be submitted to IWC. This notification shall identify the nature of the discharge, the cause of the spill, and the procedures implemented to insure no recurrence.
- D. Procedures to prevent adverse impact from accidental spills and slug discharges to the POTW may include the following:
 - 1. Prohibited and/or hazardous materials stored away from sinks, floor drains, and floor sinks.
 - 2. Building of containment structures (secondary containment) or equipment measures for containing toxic organic pollutants (including solvents).
 - 3. Inspection and maintenance of storage areas.
 - 4. Material inventory system.
 - 5. Procedures and practices for operations such as the handling, transferring, loading, and unloading of materials to avoid accidental discharges to the POTW.
 - 6. Elimination of all sources of hydraulic loading on the POTW.
 - a. Rainwater entry to drains connected to the POTW;
 - b. Plant site run-off to drains connected to the POTW; or
 - c. Any single-pass cooling water.
 - 7. Worker training designed to improve good housekeeping, and to eliminate accidental discharges to the POTW by employees, process operators, vendors, or outside contractors.
 - 8. Measures and equipment for emergency response to minimize the threat posed to the POTW by accidental spills or slug discharges.

The completed spill protection and slug discharge control program form is your spill protection and slug discharge control program. Please make a copy for your records and use before sending in the application/questionnaire.

SPILL PROTECTION AND SLUG DISCHARGE CONTROL PROGRAM FORM

- A. A description of discharge practices.
1. Continuous Batch Discharges
 2. Nonroutine Discharges Yes No Nonroutine Batch Discharges Yes No
- B. Description of stored chemicals. (If you answer YES to any of the following, please give a description.)
1. Chemical Storage (fresh or waste) YES NO
 2. Paints, flammables, fuels; YES NO
 3. Lube oils, grease, fuel oils; YES NO
 4. Organic (cleaning) solvents; YES NO
 5. Pesticides YES NO
 6. Solids or viscous liquids. YES NO
- C. Procedures for immediately notifying IWC of slug discharges, including any discharge that would violate a prohibition under 40 CFR 403.5(b).
1. IWC will be notified immediately at (520)724-6200, in the event of any accidental spill or slug discharge to the Publicly Owned Treatment Works (POTW).
 2. Within five days, a follow-up written notification will be submitted to IWC. This notification will identify the nature of the discharge, the cause of the spill, and the procedures implemented to insure no recurrence.
- D. Procedures to prevent adverse impact from accidental spills and slug discharges to the POTW may include the following:
1. Prohibited and/or hazardous materials stored away from sinks, floor drains, and floor sinks. YES NO
 2. Building of containment structures (secondary containment) or equipment measures for containing toxic organic pollutants (including solvents). YES NO N/A
 3. Inspection and maintenance of storage areas. YES NO
 4. Material inventory system. YES NO N/A
 5. Procedures and practices for operations such as the handling, transferring, loading, and unloading of materials to avoid accidental discharges to the POTW. YES NO
 6. Elimination of all sources of hydraulic loading on the POTW.
 - a. Rainwater entry to drains connected to the POTW; YES NO
 - b. Plant site run-off to drains connected to the POTW; or YES NO
 - c. Any single-pass cooling water. YES NO N/A
 7. Worker training designed to improve good housekeeping, and to eliminate accidental discharges to the POTW by employees, process operators, vendors, or outside contractors. YES NO
 8. Measures and equipment for emergency response to minimize the threat posed to the POTW by accidental spills or slug discharges. YES NO
